REMARKS

The Pending Claims

Claims 1 to 91 were originally filed and remain pending in this application. Their consideration is requested by the applicant.

The Present Amendment

The foregoing Preliminary Amendment corrects numbering erorrs of sequences in the specification. In the original specification, two different sequences were given the same number: Sequence ID No. 3026 was repeatedly used on page 296, lines 55 and 56. The second "3026" was corrected to "3027" and afterwards next Sequence ID NO. was changed to follow the appropriate numerous order to the end of Sequence ID NO. on page 298 line 60. Accordingly the total number of the sequences is 3111 instead of 3110. These changes incorporate no new matter.

No fees are believed to be due for the filing of this preliminary amendment. However, the Assistant Commissioner for Patents is hereby authorized to charge any fees owed to Deposit Account No. 50-1728, if necessary, is hereby requested.
